PROFESSIONAL SUMMARY

Information Technology student seeking a Software Engineering Internship. Hands-on experience building Java applications using Object-Oriented Programming, plus a deep learning project that classifies 960 medicinal plant species with CNN models in Python (TensorFlow/Keras). Strong in problem solving, logical thinking, and teamwork.

TECHNICAL SKILLS

- **Programming Languages:** Java, C, C++, Python (basics), JavaScript
- **CS Fundamentals:** Object-Oriented Programming (OOP)
- **Web Technologies:** HTML, CSS, JavaScript
- **Database:** SQL (basics)
- **Machine Learning / AI:** CNN, TensorFlow, Keras, OpenCV, scikit-learn, Transfer Learning, Data Augmentation
- **Tools:** Git, GitHub, VS Code, Notepad++, Google Colab, Jupyter Notebook
- **Soft Skills:** Problem Solving, Logical Thinking, Decision-Making, Time Management, Communication, Teamwork

EXPERIENCE

Java Development Intern | Oasis Infobyte

- Designed and developed a command-line ATM Interface in Java simulating deposits, withdrawals, and balance inquiries, applying OOP principles and robust user input validation.
- Built an Online Examination system in Java with user registration, timed quizzes, question retrieval, and automatic scoring.
- Implemented a Number Guessing Game in Java using conditional logic and loops for an interactive user experience.

PROJECTS

Deep Neural Network for Medicinal Plant Identification

Tools: Python, TensorFlow/Keras, OpenCV, scikit-learn, Google Colab, Jupyter Notebook

- Developed a CNN-based system to classify 960 medicinal plant species using a dataset of 12,046+ images.
- Compared and optimized five models (AlexNet, VGG16, VGG19, ResNet50, ResNet101) using data augmentation, partial fine-tuning, and hyperparameter tuning.
- Achieved the highest accuracy with ResNet101; evaluated models using precision, recall, and F1-score.

Portfolio Website

Tools: HTML, CSS, JavaScript

- Developed a responsive personal portfolio website to showcase projects and skills.

EDUCATION

B.Tech, Information Technology | Gokaraju Lailavathi Womens Engineering College, Hyderabad | 2022 - 2026 | CGPA: 7.77

Class XII (Physics, Chemistry, Mathematics) | Sri Gayatri Junior College, Hyderabad | 2020 - 2022 | Score: 91.0%

SSC | Priya Educational Academy | 2019 - 2020 | CGPA: 9.8

CERTIFICATIONS

- Microsoft Fundamentals of Generative AI
- Infosys Springboard: Web Development with HTML and CSS
- TCS iON: Email Completion
- eSkill India: Effective Communication
